

CONFIDENTIAL

28 October 1971

MEMORANDUM FOR: EA/TR

SUBJECT : Historical Board Meeting

25X1A

1. At your request I attended the meeting today of the DDS Historical Board with [] in the chair.

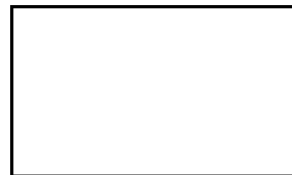

25X1A

2. When it came my turn to report on OTR's historical program - present and future - I pleaded ignorance. Understandingly, [] said he would get in touch with you.

25X1A

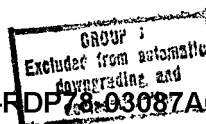

3. [] wants to have ready for Colonel White, when he returns, a DDS presentation of the projected on-going historical program. He would like, therefore, to receive from each Office its own outline of the future by Friday, 5 November. I gather that he wants a reply to his memo (herewith returned to you) of 19 October on "Planning for the On-Going Phase of the Historical Program;" the reply would also address itself to [] undated memo on "Proposed Historical Program for Support Services '72-'76."

25X1A

25X1A

CONFIDENTIAL

STATINTL

In addition to the proposed research (Papers) for OTR that [] cites in his paper (The Richardson Administration and External Training) [] suggests that:

STATINTL 1. The Language Development Committee from January '66 on be developed separately. He carried it through '65 in his history of the Language School. He thinks that just a quick review of the background through '65 and a taking off from there is necessary.

STATINTL 2. [] has been treated only through '65. He thinks that it is quite in order to pick it up as of 1 January '66.

3. The Support School. Nothing has been written on the Support School since it was organized in February '66.

4. The CTP has, like the others, been carried through '65. The January '66 to the present should be considered. STATINTL

STATINTL

In our response to [] I would suggest then that we add the Support School as the third monograph. We could call attention to the fact that [] and CTP, which are separate monographs, be carried through to current status, beginning January '66. The LDC may indeed be pulled out from the Language and Area School and become a separate monograph. (This could become a fourth paper then.)
